

Greg Jones

Senior Vice President
Strategy & Business Development

Greg Jones serves as the Senior Vice President of Strategy & Business Development for Aerojet Rocketdyne, and as an officer of parent company, Aerojet Rocketdyne Holdings, Inc. In this role, he oversees the company's strategic planning, technology planning & development, corporate development, and the capture of new business, reporting to the President & CEO.

Mr. Jones has more than 30 years' experience in the aerospace industry. Prior to joining Aerojet Rocketdyne, he served as the vice president of Corporate Business Development & International Programs for Orbital ATK. Previous to that, he was vice president of Corporate Strategy & Business Development and vice president of Corporate Strategy & Development while at Orbital Sciences.

He began his career as an engineer, supporting both space and defense programs while at McDonnell Douglas. He advanced professionally through a series of progressive leadership roles in systems engineering, technology development & planning, advanced programs & development, strategy & business development, and corporate strategy & development while at McDonnell Douglas and later at The Boeing Company.

Mr. Jones received a Bachelor of Science in Aerospace Engineering from San Diego State University, and a Master of Business Administration from Pepperdine University.

He previously served on the Aerospace Industries Association's (AIA) board of governors, and is a past space executive steering committee and space & astronautics advisory committee chair of the Aerospace Institute of Aeronautics and Astronautics (AIAA).
