

November 19, 2018

Dear Valued Aerojet Rocketdyne Supplier,

Aerojet Rocketdyne (AR, including AR Coleman Aerospace) has a requirement to gather information on our supplier's use of tantalum, tin, tungsten, or gold in all items delivered to Aerojet Rocketdyne and used in our products. This is a requirement of current government regulations; your immediate action is needed.

The Wall Street Reform and Consumer Protection Act, also known as the Dodd-Frank Wall Street Reform and Consumer Protection Act, includes requirements under Section 1502 for manufacturers of products that contain tantalum, tin, tungsten, or gold (collectively known as "3TG"), to identify minerals in their products that come from the Democratic Republic of Congo (DRC) or any of its adjoining countries and to file certain reports with the U.S. Securities and Exchange Commission (SEC).

Aerojet Rocketdyne has incorporated requirements for conflict minerals compliance into its purchase orders under which you delivered materials and with this campaign is taking the required action to respond to the reporting requirements as outlined in our Conflict Minerals Policy available at: <http://www.rocket.com/supp/policies>. To meet the law's requirements, Aerojet Rocketdyne has contracted with Source Intelligence to manage supplier engagement and the 3TG conflict minerals compliance process.

As a supplier identified to be within the scope of this law, it is **mandatory that you register on the Source Intelligence platform and provide the requested information no later than March 1, 2019**. This information must be collected on an annual basis, therefore you must update your response in the system if you have previously provided information to Source Intelligence.

Please follow the steps below:

1. Add aerojetrocketdyne@sourceintelligence.com to your safe sender list
2. Open the email that will be sent to you later today from aerojetrocketdyne@sourceintelligence.com.
3. Click the registration link in the email

*Note: If you have previously registered please use your existing username and password at <https://app.sourceintelligence.com>

4. Follow the instructions to complete the conflict minerals information request. You will have the option to either complete a Conflict Minerals Reporting Template online or upload a CMRT, version 4.0 or higher.

As an Aerojet Rocketdyne supplier you have been granted a free membership to access the Conflict Minerals Resource Center (CMRC), a site-sponsored by seven industry associations which provides information and web-based training for vendors, suppliers, and other of association members. We encourage you to use this site to educate yourselves and your organization on conflict minerals compliance. You may register at

Aerojet Rocketdyne Restricted/Export Controlled

<http://www.conflictmineralsresources.com> and use the code [SIAEROCKCUS] at the payment page for free access.

If you have any questions for Source Intelligence regarding their platform or this program, you may contact them at aerjetrocketdyne@sourceintelligence.com or contact Source Intelligence at 1-855-218-1761.

Thank you in advance for your cooperation and prompt response.

Mariel Dennis
Director, Supply Chain Compliance
