

Q507: Tin Content

Effective Date: 11/14/2019

All electronic, electrical, electromechanical, and mechanical piece parts and assemblies shall not have pure tin finishes. All tin-lead plating or solder processes shall not result in coatings which contain more than 97% tin composition.

The exception to this requirement is "Tin plated copper wire".

Deliverables:

Evidence of compliance shall be the Supplier's Certificate of Conformance.
