

**CODE 82-1
GENERAL
CONFIGURATION MANAGEMENT REQUIREMENTS FOR SUPPLIERS**

SCOPE

This code defines the Buyer's Configuration Management (CM) requirements for Seller supplying off-the-shelf (commercial) parts.

REQUIREMENTS

All articles submitted under this order shall be of the same configuration. If Seller, after receipt of this order, makes any changes in the physical and functional characteristics of the articles covered by this order, Seller shall provide written notification of such changes to Buyer prior to shipment of any changed articles.
